## EXPERIENCE

### MY HASHCODE | SOFTWARE DEVELOPMENT INTERN

June 2021 - Aug 2021

- Developed a project for the startup The Big Band Theory, and implemented Responsive UI in ReactJs.
- Worked on a unique concept of **Non-Fungible Token(NFT)**, which is the proof of ownership.
- Used 3rd party marketplace to build, manage and host NFTs for artists.
- **Optimized** existing UI components and added new custom functionalities.

### KALOORY | FRONTEND DEVELOPMENT INTERN

Oct 2020 - Jan 2021

- Developed fully functional landing page for Kaloory Social, which increased the Indian user base by **10 %**.
- Implemented Login and Signup for Admins, with Formik to handle form data.
- Used Axios to fetch response from backend APIs for authentication of admins.
- Created admin dashboard to track the progress.
- **Chart.js**, reusable cards, and tables to showcase the data.

## PROJECTS

### CRYTICS

BLOG WEBSITE BUILT USING REACTJS, FIREBASE

- **GITHUB REPO WITH LIVE LINK**
- A platform or space, where the users can share their experience of their binge watched shows, web series, movies, in just **250 characters**.
- Firebase is used for **CRUD Operations, Realtime Database, and Storage**.
- Technologies: User Auth, Cloudinary, React-Router-DOM

### ACE ACADEMY

WEB APPLICATION FOR ED-TECH COMPANIES AND TUTORS

- **GITHUB REPO WITH LIVE LINK**
- Integrated the concept of E-commerce with Ed-Tech.
- Student can buy specific topic/categories of subject and save the hefty fees of whole course.
- Technologies: ReactJs, **OAuth**, Firebase Database, Cloudinary

## ACHIEVEMENTS

- RunnerUp in ABHIGYAN SRM HACKATHON. **GITHUB REPO**
- Finalist in HackWithCW International Hackathon. **GITHUB REPO**
- Delivered Reusable ReactJs cards for the upcoming website of **WRITCO**.
- Solved more than **250** questions on GeeksforGeeks.
- Semi-finalist in Code Gladiators 2021 by Cognizant. **CERTIFICATE**.
- Ranked **1639** in participation of over **3 lakh** coders. **CERTIFICATE**.
